## CONTENT OVERVIEW

**Languagenut is a comprehensive language tool to support students learning a 2<sup>nd</sup> language. This document explains the structure, expected learning outcomes and the detail of the content covered throughout the product. To begin with there are 4 levels/dice as described below.**

### **Level 1: Units 1-6**

Level 1 of Languagenut's online learning platform allows learners to explore the basics of their new target language. There are six units covering a variety of topics, such as greetings, food and drink, hobbies, and family. Whilst users are introduced to a range of new vocabulary, they are also encouraged to formulate simple phrases and sentences to further develop their knowledge and use of the language. Grammar points are included throughout and in this first level, learners will become familiar with concepts such as masculine and feminine nouns (in the languages where this occurs), negatives, and various verb conjugations.

### **Level 2: Units 7-12**

As users of Languagenut progress to Level 2 they will continue to find out more about how their chosen language works and will discover more useful vocabulary from areas such as jobs and professions, going on holiday, and healthy lifestyles. Again, sentence building will form an integral part of users' learning as they encounter new phrases and start to link them together. Other grammar points include the introduction of reflexive verbs and demonstrative pronouns, as well as comparatives and superlatives. By the end of this level, learners will be able to tell the time, talk about their morning routine and discuss weather and holidays.

### **Level 3: Units 13-18**

Languagenut's third level extends learners' target language capacity by introducing question words and phrases and possessive pronouns, amongst other grammar points. Again, an interesting array of topics such as food and cooking, music and sounds, around the house, and travel all present key vocabulary. In addition, learners can familiarise themselves with the construction of longer phrases and sentences through the use of connectives and by the end of the unit will be in a position to comfortably discuss the topics offered here alongside those from previous levels.

### **Level 4: Units 19-24**

The fourth and final level of the Languagenut system provides a wider range of adjectives, prepositions, and a glimpse into using the past tense. A more advanced range of topics is also offered, including technology, the environment, and healthcare. By the end of this level, learners will be able to draw upon a wide range of target language vocabulary and understand a number of key grammar features. By combining these into more complex sentences and developing the ability to talk about topic areas in more detail, they will be able to interact confidently in their chosen language.

**Each level has 6 units and each unit has 60 word/phrases and sentence building to bring the content into context.**

**Unit 1 - About me**

Grammar points in this unit include introduction to the subject pronoun I and the first person forms of the following verbs in the present tense:

to be, to be called, to speak, to have

The second person subject pronoun you is also briefly touched upon. In languages where this occurs, a distinction between the formal and informal version of this pronoun can be explored, e.g. French tu vs vous.

Basic adjectives also appear in this unit. Where appropriate, learners will identify masculine and feminine nouns and the necessary changes to adjective endings.

**UNIT 8 - Going to work**

In this unit, students learn how to talk about jobs and professions. The key grammar points are centred on using the verbs to work (in) and to be. In languages where this is appropriate, distinctions around the masculine and feminine forms of the indefinite article will need to be pointed out. Similarly, nouns which change their endings to indicate masculine or feminine will also need to be highlighted. In English, the appropriate use of a vs an should be investigated. Other verbs introduced here include:

to earn (money), to save, to buy, to spend (money), to wake up, to go to bed, to go to sleep

Again, some languages will need to refer back to the use of reflexive verbs.

A recap of numbers is also advisable at this stage before moving on to telling the time. Numbers 21-30 are also included, as are time phrases.
