Bug Buster Kit

Best buy for head lice and nits!

Bug Buster and Nit Buster
Unique, bevel-edged combs
Advice on head lice, working with
NHS Health Scotland and NHS Choices

No expensive chemicals
Detection and cure
Painless nit removal

“The success of fine toothed combing depends on the choice of comb”

Hill et al.
British Medical Journal
August 2005

Reliable
Reusable
Affordable

Safeguard the whole family from lice and nits

Revolutionary Bug Buster and Nit Buster combs

- Unique, deeply bevelled teeth
- Work brilliantly with your usual shampoo and any hair conditioner

When you follow the Kit instructions you will learn to:

- Find every louse the **Bug Busting Way**
- Break the life-cycle
- Recognise any new incoming lice. No lotion or spray can tell you if you have caught more lice between doses. No medicated treatment is 100% effective.¹
- You only need one **Bug Buster Kit** for the whole family!

¹NHS Clinical Knowledge Summary (2015): Management of head lice
<http://cks.nice.org.uk/head-lice#!scenario>

Using metal nit combs instead is not recommended.
 (accessed October 2016)

After Bug Busting, you can remove unsightly eggshells with the **Nit Buster**. No tugging! Just watch the nits slide off!

Bug Buster Kit comes to the rescue when Kipper Gets Nits!
